

Circle Glider

Materials:

- Paper
- Tape
- Scissors

Instructions:

See below for visual

1. (Using a square piece of paper)
Fold into a triangle
2. Fold one sides tip into the center
3. Fold the flat end into the center
4. Repeat last step again
5. Fold once across the center of the paper
6. Fold into a circle and connect the two sides with a piece of tape
7. Cut and attach a small strip of paper for the wing
8. Curl the wing slightly to get a better glide.

The Science:

The wing acts similar to a bird's wing and pushes air downward keeping the paper airplane afloat.
